

LITTLE FINGY FUND

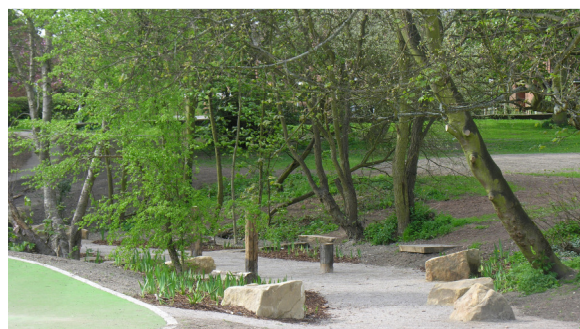

2009 / 2010

Some of the money donated by Little Fingy was used towards an informal play area in Leeds. We are currently working with Groundwork to look for suitable projects in the UK to spend the remaining funding. The project (or projects) will have a strong emphasis on play, involve working with the local community to develop the project and involve tree planting. Details will be posted on here as they develop.

The site had been neglected and under used for years

The local children were involved in stone carving workshops and other artwork projects on the site. This is to encourage a sense of ownership and pride

The site called 'The Bumps' off West Park Avenue in Leeds 8 was formally a playground but had been neglected for some time. Groundwork Leeds part funded the project with a contribution from Little Fingy. The site has been transformed into a vibrant informal play space centred around a dry river bed with features such as carved stone, a footbridge, iris planting, stepping stones and reclaimed timbers. There are also some traditional play features included on site including swings, a slide, talk tubes and a five-a-side goal unit plus improved access and a revamp of the entrance off West Park Avenue. The project has been extremely well received by the local community who were involved throughout the design process. The site is now very well used and has been made accessible for all to enjoy.
